As a motivated and enthusiastic Full Stack Developer, I possess a strong foundation in both front-end and back-end development. I am proficient in building responsive and dynamic web applications using HTML, CSS, JavaScript, and modern frameworks like React for front-end development. On the back-end, I have experience with Python and Django, enabling me to create robust server-side applications and APIs.

PROJECTS

Luxury Hotel Website

[View](#)

- Developed an elegant and responsive landing page using React, showcasing luxury hotel amenities and services to enhance user engagement.
- Implemented dynamic UI/UX features with Tailwind CSS for a seamless and interactive user experience.
- Deployed the website with Netlify to ensure fast load times and reliable access, leveraging React's component-based structure for maintainability.

Esheba Medical Website

[View](#)

- Built a modern medical services website using React, focusing on user-friendly navigation and clear presentation of healthcare information.
- Enhanced the design with responsive layouts to ensure compatibility across various devices, providing an optimal viewing experience.
- Utilized Netlify for efficient deployment and seamless performance, enabling quick updates and high availability.

Skiline Education Website

[View](#)

- Developed an interactive educational platform using React, designed to showcase courses and learning resources effectively.
- Incorporated React Icons and Material UI for visually appealing design elements and user-friendly components, enhancing overall aesthetics and usability.
- Deployed with Netlify for reliable and fast access, ensuring consistent performance and easy maintenance.
